Weekly Update

What an excellent week! We got to enjoy the beautiful weather and finish out our ISTEP+ testing for the year. I am very proud of the perseverance the students have had throughout all of the testing that we have done in third grade!

Even with all of the testing, we did a lot of new learning as well!

We continued our math unit on measurement and studied liquid volume and mass. We will be wrapping the measurement unit up at the beginning of next week.

During science we got to learn about science fruits and science vegetables and discover some of the similarities and differences between the two. The students seem to really enjoy the lessons we have been completing in our unit on plants.

In honor of Earth Day today, we also completed a few activities that pertained to this. Students got to make a craft to accompany some of the writing they did.
