Weekly Update

Not only did we make it through an entire week of ISTEP+ testing last week, we made it through a couple of extra days of testing this week! We were chosen to complete the online pilot test for the ELA portion of ISTEP+ and completed this on Tuesday morning. We also completed the OLSAT testing this week. Students did a great job with the alterations to our schedule!

In math this week, we wrapped up our unit on measurement and began a unit on geometry. Students will study 2D and 3D shapes throughout the unit. A great way to practice these concepts at home is to have students point out things in real life that are the 2D and 3D shapes we are learning about in class. We also began a new unit in social studies. We are going to be learning about how the past has affected and sculpted our present.
