Weekly Update

We have had an exciting two days this week! Please remember that there will be no school beginning tomorrow, Wednesday, November 25th through Sunday, November 29th for the Thanksgiving holiday! I hope that all of your families have a wonderful and safe holiday. Our math unit has focused on multiplication, including multiplying to find the area of squares and rectangles. We will begin taking multiplication timed tests next week, as well as getting multiplication flash cards.

The students will continue to practice the operation (addition, subtraction, multiplication, or division) that they were on in Xtra math, but we will also be completing multiplication fact practice daily. Third grade students are expected to be able to know their multiplication facts for zero through ten. Please encourage your child to practice these facts every night to ensure success with multiplication. We were also able to begin a science unit this week, focusing on rocks and minerals. We will continue this unit next week as well!
