Weekly Update

We certainly had a fun filled week in third grade! During the day on Tuesday, our class was able to participate in the Quake Cottage simulation of an earthquake. This was well received and all students who participated learned what a real earthquake would feel like. On Tuesday evening, many students enjoyed the first ever Science Rocks Night presented by the PTO at Washington Discovery Academy. Students and families were able to participate in many hands-on science experiments as well as other science related activities. During this time, the PTO also hosted the Quarter Raffle. Each class basket was raffled off to one lucky winner. Wednesday was our first field trip for the year; we went to Ag Day 2015 at Centennial Park, right here in Plymouth. The students were able to view interactive presentations on many different aspects of agriculture. Thursday was excited because the author, Jonathon Rand, came to visit Plymouth and the surrounding area. His presentation was held at Menominee Elementary in conjunction with the presentation of the awards for the Young Author's Contest. A HUGE congratulations to our very own Cassidy Riddle, as she received an award for the story that she wrote for the contest!
